

## Brew City Bully Club Rescue Initiative

The Brew City Bully Club rescue program is part of our ongoing efforts to create a community where pit bulls and people live together safely, respectfully and happily.

The program is designed to bring homeless pit bulls from animal control facilities and shelters to adoptive homes.

### **Foster Information**

The foster process is what makes our rescue goal achievable.

Foster homes not only provide a safe and loving environment prior to adoption, but also provide essential training and socialization to prepare the dogs to be ambassadors for their breed. It is with these skills that the dogs in the rescue program will be adopted and will continue the mission of *changing minds and saving lives*.

Fostering is a wonderful experience for you and your family – you can feel good knowing that you have helped save a dog's life. Foster dogs also provide companionship and purpose.
